

# CASE STUDY

## Decorational floor Coating at the Norte Bar in Greece

The architect required a fresh idea...

So the MARISEAL SYSTEM® Sandcarpet  
Decorative Floor Coating System was selected.

A wide range of colors can be chosen for the sand,  
meeting every homeowners or architects decorative  
demand.

The sand is mixed with the transparent, one component,  
aliphatic polyurethane coating MARITRANS in this case  
used a binder resin, creating a beautiful, hard-elastic,  
abrasion resistant and anti slip decorative floor.

### **MARISEAL SYSTEM®**

#### Advantages of the MARISEAL SYSTEM® Sandcarpet at a glance

- Minimal additional weight and height added to substrate
- Remains flexible over a temperature span of -40°C to +90°C
- Provides excellent adhesion to almost any type of surface
- Can be used for pedestrian and vehicular traffic
- Resistant to detergents, oils, seawater and domestic chemicals
